## Biotechnology Industry Research Assistance

(A Government of India Enterprise)

### Biotechnology Ignition Grant (BIG)

*Igniting New Ideas*

Scheme Guidelines

Version 9; October 2025

---

## 1. Scheme in brief

The Biotechnology Ignition Grant (BIG) is a flagship scheme of BIRAC that recognizes and invests in innovative ideas in the biotech sector. The ideas should have clear potential to translate into commercial products/technologies. BIG supports early stage start-ups from ideation to Proof of Concept (PoC). Under the BIG scheme, BIRAC provides a grant-in-aid of upto INR 50 lakhs for a period of 18 months.

## 2. Purpose of the BIG scheme

### 2.1. BIG scheme:

- **Supports** ideation to PoC
- **Nurtures** entrepreneurship to enable translation of ideas into commercially viable products/ technologies to address unmet need
- **Enables** Biotech Startup Ecosystem in the country to become globally competitive

## 3. Types of projects supported

### 3.1 What is supported?

BIG scheme promotes high risk deep-tech proposals in biotech sector and supports innovation under Healthcare, Lifesciences, Diagnostics, Medical Devices, Drugs, Vaccines, Drug Formulations and delivery systems, Industrial Biotechnology, Agriculture, Secondary agriculture, Waste Management, Sanitation, Clean Energy and related areas. The project proposals can be submitted in any of the following seven categories:

- Devices & Diagnostics
- Drugs, including drug delivery
- Industrial Biotechnology, including Secondary Agriculture
- Agriculture
- Biosimilars & Stem Cells
- Vaccines
- Bioinformatics

**3.2** BIRAC encourages proposals involving integration of Biotech with applied sciences that may include Engineering, Artificial Intelligence, Sensors, Automation, Robotics and related disciplines to potentially facilitate transforming healthcare, lifesciences, agriculture, secondary agriculture and other bio-based industry/ markets. What is not supported?

- Basic/exploratory research projects.

- Projects having a low element of novelty
- Projects lacking a significant biotech component or robust scientific foundation
- Late stage projects involving systematic clinical trials, field trials or late-stage validation/ certification of the technology

*Note: BIG grant is not a research fellowship and cannot be used to support PhD or any other academic research.*

## 4. Project Duration

The funding is provided for a period of up to 18 months. The project is implemented in a milestone-based manner.

## 5. Support provided to grantees under the scheme

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1   | <b>Financial</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5.1.1 | The funding support under BIG is in the form of a grant- in-aid.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5.1.2 | Extent of funding is up to INR 50 lakhs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 5.1.3 | <p>The fund allocation under BIG* is milestone based and released in 3-4 installments as detailed below:</p> <ol style="list-style-type: none"> <li>1. <b>INR 20.00 lakhs</b> upon signing of the Grant Agreement.</li> <li>2. <b>One to two instalments</b>, each of <b>up to INR 20.00 lakhs</b> to be released based on satisfactory progress of project milestones and funding requirement.</li> <li>3. <b>Up to INR 5.00 lakhs</b> upon successful completion of the project and submission of the Final Technical Report.</li> </ol> <p><i>Note: The final tranche shall be released as reimbursement upon submission and acceptance of the final Utilization Certificate (UC), Statement of Expenditure (SoE), and the Project Completion Report</i></p> <p>*Total fund not exceeding INR 50 lakhs.</p> |
| 5.1.4 | Guidance related to planning and utilization of funds is provided in Section 11 below.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.2<br>Entrepreneurial<br>Support | <p>BIRAC and BIG Partners provide continuous mentoring support to the grantees, including but not limited to the following:</p> <ul style="list-style-type: none"> <li>• Technical Mentoring (Connect with Technical Experts)</li> <li>• IP Support</li> <li>• Legal Support</li> <li>• Networking and Outreach</li> <li>• Trainings</li> <li>• Regulatory Advice</li> <li>• Business Mentoring</li> <li>• Connect with Investors</li> <li>• Any other assistance on case basis</li> </ul> |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 6. Who can apply? (Eligibility criteria)

|       |                                                                                                                                                                                                                                                                                                                                                                 |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1   | The Company/LLP should be registered under the Indian Companies Act, 1956/2013                                                                                                                                                                                                                                                                                  |
| 6.1.1 | The incorporation date of the Company/LLP should not be earlier than 5 years from the date of launch of a particular BIG call.                                                                                                                                                                                                                                  |
| 6.1.2 | A company is considered as 'owned' by resident Indian citizen(s) if minimum 51% of the capital is beneficially owned by resident Indian citizen(s) and / or Indian companies, which are ultimately owned and controlled by resident Indian citizens                                                                                                             |
| 6.1.3 | Company/LLP's application should be represented by a Project Leader (defined under Section 7.1).                                                                                                                                                                                                                                                                |
| 6.1.4 | The Company/LLP must have its own in-house R&D facility that is functional and adequate to execute the project. If the Company/LLP does not have a functional and adequate laboratory of its own then it should be incubated at an incubator (This shall be verified and confirmed by BIG Partner ),                                                            |
| 6.1.5 | If an applicant company, in which any promoter holding more than or equal to 20% of the shares, is a co-promoter of another ineligible company or a partner in another ineligible LLP, then the applicant will not be eligible. The only exception to this shall be a situation wherein the latter ineligible company/LLP is operating in a non-biotech domain. |
| 6.1.6 | <p>Companies that are in default of loan repayment to BIRAC, as well as their promoters, shall be deemed ineligible to apply under the scheme.</p> <p>The list of such defaulters is available on the BIRAC website at: <a href="https://www.birac.nic.in/desc_new.php?id=283">https://www.birac.nic.in/desc_new.php?id=283</a></p>                             |

## 7. Other important details

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 7.1   | <b>Project Leader</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7.1.1 | Every proposal must clearly identify a Project Leader who will take responsibility for the technical and managerial aspects of the project execution.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7.1.2 | The Project Leader must be technically qualified to undertake the project. The Project Leader must have completed basic undergraduate training in any discipline.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 7.1.3 | If the proposal is shortlisted for presentation in front of Selection Committee(s), the Project Leader will be required to present the case for support. In the event that proposal is shortlisted for funding support, the Project Leader will be required to sign the project agreement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 7.1.4 | Project Leader must be a shareholder in the applicant company.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 7.2.1 | <p>Applicants are expected to show documentary evidence for verification by BIG Partners:</p> <p><b>Before Technical Expert Panel (TEP)</b></p> <ul style="list-style-type: none"> <li>• Undertaking from Scientific Advisors/ Mentors to serve as <i>honorary</i> advisors</li> <li>• Undertaking from the key members of the technical team</li> <li>• Letter of interest/intent from the incubator</li> <li>• Evidence of access to unique facility(ies) needed to execute a project</li> <li>• Evidence of access to key samples needed to execute the project (eg: bio-fluids)</li> </ul> <p><b>Post Result Announcement</b></p> <ul style="list-style-type: none"> <li>• Letter of acceptance or MoU with incubator</li> <li>• Formal agreements/ MoUs with other key facility(ies) providers/ suppliers</li> <li>• Any other due diligence documents requested on a case-to-case basis by BIG Partners (e.g. technology inlicensing; IP rights clarification; NoC from Institute etc.)</li> </ul> |
| 7.2.2 | The proposed objectives and deliverables should not have received funding support from any other agency and Undertaking by the applicant that the project with same objectives and deliverables has not received funding from any other agency.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 7.2.3 | BIG support can be provided only once to any startup.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## 8. Application process

- BIRAC issues a national call inviting applications under BIG at least twice a year (typically on 1<sup>st</sup> of January & 1<sup>st</sup> of July).
- The Call for Proposals is advertised through one or more means that may include BIRAC website, newspapers, journals and magazines.
- The Call for Proposals is typically open for a period of 30 days
- The BIG Scheme is implemented across the country through BIRAC's BIG Partners. The Call will mention the names of BIG Partners for the particular call. Names of the BIG Partners and their responsibilities are mentioned in Annexure 1.
- Application for BIG needs to be submitted online ONLY through BIRAC website [www.birac.nic.in](http://www.birac.nic.in).
- Applicants are advised to fill-up and submit their applications early without waiting for the last date in order to avoid last-minute rush. Please note that the online system will stop accepting applications automatically at the specific date and time mentioned in the Call details.
- Applicants are advised to provide sufficient details in their applications to allow for an informed and fair evaluation/review.
- Requests for changes in a proposal once submitted will not be entertained.
- Providing incorrect information intentionally is viewed adversely and may lead to disqualification.

## 9. Selection process

BIG selection is a multi-tier process involving the following steps:

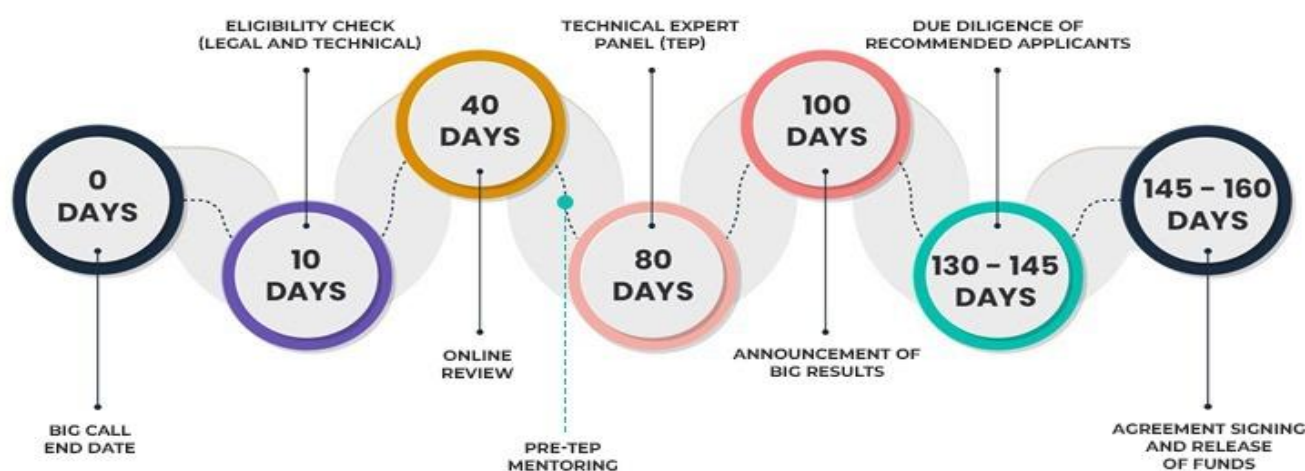

- **Step 1:** Eligibility Check: BIG Partners screen the applications for the legal and technical eligibility requirements, based on the information provided by the applicant in the BIG proposal document. Some of the contours to examine technical eligibility include:
  - Scheme fit, including the stage of the proposal and relevance to the scheme
  - Availability of adequate technical details that are minimally required for online review
  - Plagiarism
- **Step 2: Online review:** Each eligible proposal is assigned to 3-5 reviewers with subject area expertise. To further strengthen the reviews, BIG Partner constitutes a Review Committee to examine the scientific strengths of the proposal.
- **Step 3:** Presentation before the Technical Expert Panel (TEP): This is the final selection step of BIG evaluation. Applicants shortlisted by the Review Committee are called for a Face-to-Face presentation before the Technical Expert Panel (TEP). The TEP is conducted centrally by BIRAC.

- **Step 4:** The TEP recommended applicants are then subjected to final financial and technical due diligence by the BIG Partner. Applicants have a maximum of one month to forty-five days to accept the BIG grant offer and complete the due diligence. After 45 days, the grant offer will be deemed withdrawn.

BIG partner representative(s) may require a visit to the applicant's site. The visit involves following steps:

- Reconfirming eligibility by verification of original documents
- Legal, technical and financial due diligence
- Confirming applicant's claimed resources: Space, equipment, manpower, advisors, incubation services, samples etc
- Confirming compliance strategy with regards to safety, ethics, waste disposal etc.
- Confirming for any special guidance by ESC
- Justification of budget (usually by verifying quotations); meeting budget caps and other requirements
- Finalization of milestones, budget and payment schedule; defining clear measurable milestones.

Schematic representation of the process flow with indicative timelines is provided below:

## 10. Indicative evaluation criteria

BIG Proposals are reviewed on following parameters during online review and TEP Stage:

- Unmet Need (max 20)
- Value Proposition/Differentiation (max 20)
- Technical Viability (max 30)
- Team Strength/Passion (max 15)
- Business Perspective (max 15)
- Potential
- Clarity/Team's view
- Commercialization Potential

Brief Description of the various criteria used for evaluation of BIG proposals is as follows:

| Criteria                          | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Value proposition                 | <ul style="list-style-type: none"> <li>✓ What is the value proposition?</li> <li>✓ Will the technology have significant commercial/societal impact?</li> <li>✓ Does the idea offer a potential solution to an unmet need in market/society?</li> <li>✓ Does the product/technology offer import substitution with potentially high economic benefit?</li> <li>✓ Is the target market large or addressing a niche segment?</li> <li>✓ If the idea succeeds, does it have potential for disrupting the markets or industry or technology landscape?</li> </ul> |
| Technical feasibility of the idea | <ul style="list-style-type: none"> <li>✓ Is the idea technically feasible in light of the current state of knowledge in the field and data provided to support the proposed idea?</li> <li>✓ Are technical claims reasonable?</li> </ul>                                                                                                                                                                                                                                                                                                                     |
| Team Strength                     | <ul style="list-style-type: none"> <li>✓ Technical competence of the PI and team</li> <li>✓ Is the strength of PI and team sufficient to take the project to completion?</li> <li>✓ Has the team identified relevant</li> </ul>                                                                                                                                                                                                                                                                                                                              |
| Novelty                           | <ul style="list-style-type: none"> <li>✓ Does the proposed technology have a significant novel component?</li> <li>✓ Does it differ from the existing solutions and future relevant competitors? And the differentiation has a commercial potential?</li> <li>✓ Does the proposed technology have potential to create new IP?</li> </ul>                                                                                                                                                                                                                     |
| Commercialization strategy        | <ul style="list-style-type: none"> <li>✓ What is the Go-to Market Strategy?</li> <li>✓ Has the applicant identified target customers for the technology/ product/ service?</li> <li>✓ Has the applicant identified potential business partners/mentors?</li> </ul>                                                                                                                                                                                                                                                                                           |
| Strategy to overcome challenges   | <ul style="list-style-type: none"> <li>✓ Team's preparedness to identify challenges and way forward</li> <li>✓ Does the project progression face any major barrier(s) such as: <ul style="list-style-type: none"> <li>○ Regulatory</li> <li>○ Ethical and EHS</li> <li>○ Availability of raw material/ key resources</li> <li>○ Requirement of unique facility(ies)</li> </ul> </li> <li>✓ Patent rights, technology in-licensing etc.</li> </ul>                                                                                                            |
| BIG project plan                  | <ul style="list-style-type: none"> <li>✓ Does the proposal provide sufficient details for evaluation?</li> <li>✓ Are the project timelines and deliverables reasonable?</li> <li>✓ Are the project objectives achievable with the funding cap of INR 50 lakhs?</li> </ul>                                                                                                                                                                                                                                                                                    |

## 11. Budget Planning

|                                                                                                                                                                      |                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Budget heads typically involve the following: <ul style="list-style-type: none"> <li>• <b>Recurring expenses</b></li> <li>• <b>Non-recurring expenses</b></li> </ul> |                                                                                                                                                                                                                                                                                    |
| <b>Recurring expenses</b>                                                                                                                                            | This will include: <ul style="list-style-type: none"> <li>• Manpower</li> <li>• Consumables</li> <li>• Incubation space rentals and services</li> <li>• Travel</li> <li>• IP costs</li> <li>• Outsourcing</li> <li>• Contingency</li> <li>• Any other operational costs</li> </ul> |
| <b>Non-recurring expenses</b>                                                                                                                                        | This will include: <ul style="list-style-type: none"> <li>• Equipment cost</li> </ul>                                                                                                                                                                                              |

## 12. Signing of Agreement, Fund Disbursement, Monitoring and Review process

- For the proposals finally recommended for funding support, BIG Partners, on behalf of BIRAC sign agreements with BIG grantees after completing the due diligence. Necessary guidance notes and templates are provided to BIG Grantees by respective BIG Partners.
- BIRAC releases funds to the BIG Partners, who, in turn, disburse funds to the BIG Grantees.
- Based on approved project milestones, respective BIG Partners periodically monitor progress and review the project. Grantees have to submit periodic reports and utilization certificates in the prescribed format to the BIG Partner.
- The project progress is also monitored by BIRAC regularly, including a F2F presentation towards completion of the project.
- It is mandatory for all BIG grantees to interact with at least 2 investors during 18 months of BIG project and include the feedback in the final report.

## 13. Nomenclature and definitions

| Term           | Definition and clarifications                                                                                                                                                                                                                                                                                                                                   |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Company        | An entity registered under the Indian Companies Act 1956/2013.                                                                                                                                                                                                                                                                                                  |
| Indian citizen | An Indian citizen is defined as one who is in possession of a government approved proof of nationality such as a valid passport. NRIs are Indian citizens. OCI/PIO cardholders are not eligible for this scheme. As per Article 9 of the Constitution of India 1949, people voluntarily acquiring citizenship of a foreign state are not deemed to be citizens. |

## 14. Acknowledgement clause

BIG Partner and Grantee shall acknowledge the assistance of BIRAC while publishing or presenting in any manner the details of the Project, its progress or its success or commercialization of the Project.

## Annexure 1

### BIG Partners

The BIG Scheme is implemented through BIG Partners located across the country. BIRAC has signed MoU with these partners for the implementation of the scheme. A Call for Proposals mentions the names of BIG Partners for the particular call.

#### Responsibilities of BIG Partner include:

- Create awareness about the BIG scheme through outreach programmes, social media etc.
- Provide mentoring for grant writing and proposal submission to BIG aspirants
- Receive online applications
- Screen BIG applications for eligibility and suitability for the scheme
- Conduct first-level screening through online review of eligible applications and submit detailed recommendations to BIRAC for further approval
- Conduct pre-TEP mentoring of the shortlisted applicants, where the Partner organizes a one-on-one mentoring session and provides pitching guidance to prepare the applicants for an F2F presentation in TEP.
- Conduct technical & financial due diligence of the recommended applicants Sign agreements with the finally selected innovators
- Verify requirements for release of funds (milestone-based)
- Monitor the milestones and provide continuous mentorship/handholding for activities related to IP management, legal, contracts, mobilizing resources, fund raising and other business-development related activities
- Organize workshops/ seminars/ mentoring sessions for BIG grantees
- Provide a platform for interaction with Experts, Mentors and other academic/ business partners.
- Update BIG online portal with latest updates and grantee status

#### Current BIG Partners are as follows:

| S. No. | BIG Partner                                                         | Contact information                                                                                                                                                                                                                             |
